HTML Assignment
(Technical Communication, GEIAK100-B2a)

Create a visually appealing and well-structured webpage based on the topic assigned to you. This assignment aims to demonstrate your understanding of HTML and CSS, including layout, styling, and best practices.

Requirements:

HTML:

- ☐ Use proper HTML5 elements.
- ☐ Include a title for your webpage that accurately reflects the topic.
- ☐ Structure your content with appropriate headings and paragraphs and include at least one image, one table, one list, and one link in the document.

CSS:

- ☐ Use at least element selectors, class selectors, and ID selectors. Utilize inline CSS for at least one element on your page.
- ☐ Style your text using properties like `font-family`, `font-size`, `color`, and `text-align`, etc. Also apply formatting for tables, images and lists.
- ☐ Format background.
- ☐ Use at least 10 different selectors in total.
- ☐ Link the CSS from external file in your HTML document.

General:

- ☐ The document must contain approx. 1,000 words, which can be copied from the Internet (appropriate reference to the source must be included in the page).
- ☐ The document must introduce your assigned topic:

Neptun code	Topic
AOSZA2	Quantum Computing
APM0Y3	Blockchain and Cryptocurrencies
EDPS81	Large Language Models
IMSNS1	Self-Driving Vehicles
MZE6T1	Internet of Things
SIVKLY	Cloud Computing
VXN605	3D Printing
WYGZ9Z	Wearable Technology
X7EL6E	Augmented and Virtual Reality
ZUXZJ1	Advances in Cybersecurity

Submission: All files of the project should be compressed into a ZIP file and sent to the instructor in email (aron.kiss@uni-miskolc.hu).

Deadline: 2024. 11. 06. 12:00.

The submitted solutions will then be evaluated, and feedback will be provided via email. Solutions that do not meet the required standards can be revised until 2024. 12. 11.
