

## Java - JAXRS

Install *Apache Maven* from the official website.

```
git clone https://github.com/wildfly/quickstart.git
cd jaxrs-client
```

Build the documentation:

```
mvn clean package -Pdocs
```

Build the source code of the example:

```
mvn clean install
```

Install WildFly application server from the official webpage, and start it as follows:

```
cd wildfly_installation_folder/bin
./standalone -c standalone-full.xml
```

Deploy application to wildfly locally:

```
mvn clean install
```

Start tests:

```
mvn verify -Parq-remote
```
